## CHINON BELLAMI

HOW MANY FULL-SIZE CAMERA FEATURES CAN YOU PUT INTO A "SUB-MINIATURE"? THE CHINON BELLAMI IS THE ANSWER. ULTIMATE VERSATILITY AND PICTURE QUALITY IN A CONVENIENCE-SIZED 35mm CAMERA. THE CHINON BELLAMI - THE "MAXIMUM MINIATURE".

CHINON

### SEIKO ELECTRONIC SHUTTER - WORLD RENOWNED FOR PRECISION

The "heart" of the Chinon Bellami is the world renowned SEIKO Metal programmed EE Shutter - the technological top rated shutter. This ultra-precise electronic shutter slices time into fractions of a second so that you're always assured of perfectly exposed pictures.

### THREADED CABLE RELEASE SOCKET

You ought to be in pictures. So put yourself in the photo by simply threading a cable release into the convenient cable release socket of the shutter release. Plus you can use the cable release when shooting under low light conditions.

### CAREFREE FOCUSING

The Chinon Bellami features a dual focusing system which gives you unparalleled flexibility. For convenient and care-free photography, just set the lens to the green engraved "universal focus" position and your pictures will be brilliantly sharp.

Or should you desire to take command of the Chinon Bellami, you can focus the lens by using the engraved distance scale - either way your results will be breath-taking!

### TWO-STAGE SHUTTER RELEASE

The Chinon Bellami features an unbelievably smooth two-stage shutter release! Press half way down and the Bellami's metering system is activated (Stage 1). Press all the way down to take the picture (Stage 2). And since the shutter release is so smooth, virtually all camera movement is eliminated so that your pictures are always razor sharp!

### LED BATTERY CHECK

An electronic LED glows, indicating the Chinon Bellami batteries are A-Okay.

### ASA DIAL

Change ASA settings (25-400) quickly and conveniently by rotating the ASA Dial.

### ACTION-FREEZING SHUTTER SPEEDS TO 1/1000 SEC.

The Chinon Bellami features precise stepless shutter speeds from 1/8 sec. to an "action-freezing" 1/1000 sec. Its increased shutter speed range enables you to increase your photographic versatility! Now you'll never have to sacrifice dramatic effects in your photography - the Chinon Bellami captures it all!

### QUICK ACTION FILM ADVANCE

Great photo situations come and go by so fast you have to be ready. The Chinon Bellami is designed with a quick action film advance lever so that you can keep up with all the action! There are no clumsy dials or other hard to use film advance mechanisms.

### ELECTRONIC LED FLASH RED-LIGHT

The Chinon Bellami even tells you when to use flash. An electronic red LED glows when there is insufficient light to take pictures without flash.

### DAYLIGHT SYNC FEATURE

The Chinon Bellami couples precisely to an optional dedicated flash which features daylight sync, position. Now you can take breath-taking photographs outdoors during cloudy or overcast days.

### RESETTABLE FRAME COUNTER WINDOW

The Chinon Bellami counts the number of exposures. Just look at the frame counter window to know how many shots you have left.

### IT IS FASHIONABLE TO BE SMALL

Chinon Bellami's capabilities, compact size and light-weight are largely due to the utilization of micro electronics and computerized technology. But although the Chinon Bellami is ultra-slim and elegantly styled, its picture-taking capabilities will amaze you! After all, the Chinon Bellami is a full-frame 35mm camera with sophisticated electronics that rival most full-sized SLRs.

**CHINON LENS GUARD**

The Chinon Bellami is a human-engineered compact camera, featuring an ingenious retractable lens system with protective "Lens-Guard" doors! There is no need for a carrying case since the lens is fully protected and locked into position when the lens guard doors are closed. Ready to take a picture? Just one touch on the quick action film advance lever signals the lens guard doors to open and the lens protrudes to the picture taking position. The Chinon Bellami. It's automatic - it's easy - it's Chinon, naturally!

**ELECTRONIC OPTIONAL DEDICATED FLASH**

The Chinon Bellami goes anywhere the action is - twenty-four hours a day! Just couple the optional S-120 dedicated flash to the Chinon Bellami, and you're set for an incredible indoor and daylight sync. photographic experience. The Chinon S-120 Flash is simplicity itself. Just one turn of a single knob and the S-120 securely attaches to the Chinon Bellami. This sophisticated electronic mini flash features an easy-to-use three-position master switch - "OFF"/"FLASH"/"DAYLIGHT-SYNC", ready for any photographic situation. Just set the switch to the indoor flash setting and the electronics do the rest! There is even a built-in "blinking" LED that signals when the flash is fully recharged. It couldn't be easier!

**OPTICAL GLASS LENS**

Chinon Bellami features an ultra-sharp 35mm F/2.8 glass lens designed with four elements in four groups. This razor-sharp lens brilliantly captures all the action! The Chinon Bellami is quality inside and out.
